What's Up at the Mendel?

Our Mendel PotashCorp school programs are more **hands-on** and **interactive** than ever!

Inspire your students with a **positive** new **ARTitude!**

Our Child-Centred Programs:

- ✓ Connect to many school curriculums, not only art
- ✓ Are conducted by professionally trained and educated Program Guides
- ✓ Develop social skills in a gallery setting
- ✓ Include both independent and group learning opportunities
- ✓ Foster positive self-expression
- ✓ Increase our understanding of the world, through analyzing and discussing original art

The Mendel provides all hands-on materials. Book two classes (any grade/theme) and share busing costs.

Watch for our big glossy poster and quarterly flyers with updates.
